Australian Securities Exchange  
Company Announcements Office

**CSG (ASX:CSV) ESN transaction not proceeding**

CSG today announces that the transaction announced on 3 March 2010 regarding the granting of an international licence for its education software in return for shares in Entellect Solutions Limited (ASX:ESN) will not proceed.

As announced previously, the transaction was conditional on several conditions. These conditions could not be met by ESN.

CSG will continue to work with Canadian Company, The Administrative Assistants Limited ("AAL"), on potential alternatives for the international opportunity.
